

TOWN OF FOXBOROUGH
40 SOUTH STREET
FOXBOROUGH, MASSACHUSETTS 02035

On Call Engineering & Support Services

ADDENDUM #1

April 28, 2022

NOTICE TO BIDDERS

Question-

Does an Engineering firm have to be qualified in all of the disciplines listed in the RFQ?

Answer-

No. The RFQ states:

"The Town of Foxborough is seeking to engage the services of Professional Engineering consulting firms with capabilities in various civil engineering disciplines including, but not limited to:"

The Town is looking for multiple firms with various disciplines. We would encourage small and large firms with specialized disciplines to apply.

Question-

We were wondering if the Town would consider an extension of the due date by 1 or preferably 2 weeks. There are several RFQ/P's out right now and we want to make sure we can dedicate resources to put together a responsive proposal.

Answer-

Yes, the Town has agreed to extend the due date of the On-Call Engineering and Support Services RFQ.

Bid Documents are now due Thursday, May 26, 2022 at 10AM.
